Experience

Instructional Designer | BYU Arts Partnership | Jan 2005 - Dec 2025

Adapted an online course to a new format (ebook) making their digital learning content more visible and accessible to a more diverse audience.

Managed the project to redesign the BYU Arts Partnership's website, making their website easier to navigate and faster to search for learning content and resources.

Applied the design thinking process and adult learning principles to redesign the new website, creating a better user and learning experience.

Graphic and Web Designer | SirsiDynix | Nov 2015 - Dec 2024

Redesign and developed the website to better market the company and to drive more customers to the site for information they needed about services and products.

Designed and created Marketing materials for the company and their sales team to better promote and teach about their product and services.

Collaborated in the creation of a Marketing product to create more revenue.

Created onboarding training materials and online trainings for their new Marketing product.

Art Teacher | Provo Canyon School | Jul 2015 - Oct 2015

Planed, modified and redesigned the lesson to better meet the students' needs as I taught them art and visual culture concepts through drawing, painting and Graphic Design.

Graphic Designer | BYU Graduate Studies | Aug 2013 - Apr 2015

Met with different clients to better understand their needs and their views of the projects.

Searched for opportunities to better advertise events through improved designs and also took pictures to promote their events through social media.

Teacher Assistant | BYU Computer Science Department | Summer 2012, 2013, 2014

Balanced supporting students with grading responsibilities while remaining calm in stressful situations.

Taught C++ and Java by simplifying and explaining complex concepts to the students.
